Metal Keyboard

Datasheet Name	Technical Datasheet for Metal Keyboard
Version	V 1.0
Latest edit date	01-01-2023
Model	LP3385

About the product

Linepro's LP- 3385 industrial metal keyboard is specially designed, developed and manufactured for harsh environment and machines of public access kiosks and industrial interfacing consoles. The design complies to IP65 protection standards against fluid spill and dust. Its rugged construction makes it resistant to vandalism and abusive use. It has no removable keycaps. This industrial metal keyboard is easy to install with rack-mount type version. The keys are laser marked for high-class durability.

Product Image & Dimension

Salient Features

- #304 Stainless Steel for Rugged construction
- High Sensitivity Touchpad cursor
- USB connection interface
- QWERTY based key structure
- IP65 protection standard
- 'Fn' key works in combination with F1-F12 keys

Electrical Parameters

- Power Supply: 5V
- Mean Time Between Failures (MTBF): >30,000 hours
- Mean Time To Restore(MTTR): <30 mins
- Power Consumption: <0.5W

Mechanical Parameters

- Keys: 64
- Dimensions: 330.25 x 115.6 mm
- Gross Weight: 1.3Kg
- Key Symbols/Letters: Laser Marking
- Key Strike: 1.0 -1.5mm

Environment Characteristics

- Temperature: -25 to 60 Degree Celsius
- Relative Humidity: 30% to 90% RH
- Air Pressure: 60-106 Kpa
